

The Dutchess County Regional Chamber of Commerce reminds you to Think Local First, especially during these challenging times. Local businesses and service providers will need our support now more than ever, and it's important to remember that every dollar spent locally helps your friends, your neighbors, and your community.

We will bounce back, as we've done before, and demonstrate why the Hudson Valley is the best place to live, work, and raise a family.

So remember, when you shop, when you dine,
and even when you shop online...
please **Think Local First.**
