## Multiple Business Dues Investment Schedule – 2019

This schedule pertains to those **businesses that have two or more types of businesses on their premises** (indicated by the types on page one,) **with the SAME EMPLOYER I.D. NUMBER**. If the businesses have different employer I.D. numbers, but are owned by the same people, they need to join the chamber as separate businesses.

How to calculate multiple investment dues:

1. Decide which of your businesses is the PRIMARY business and find your dues investment on page one. Please make sure to add all the appropriate employee numbers in with your primary dues.
2. Based on this investment, your additional investment(s) is/are as follows:

Your primary business dues are \$450 or below,  
your additional business(es) = \$177 (each)

If it is \$451 - \$546, your additional business(es) = \$280 (each)

If it is \$547 - \$679 = \$414

If it is \$680 - \$834 = \$469

If it is \$835 - \$1,001 = \$599

If it is \$1,002 - \$1,304 = \$873

If it is \$1305+ = \$1,092
