*Full-time equivalent employees equal the number of employees on full-time schedules plus the number of employees on part-time schedules converted to a full-time basis. For example: You have three employees and they work 50 hours, 40 hours, and 10 hours per week - totaling 100 hours. Assuming a **full-time** employee works 40 hours per week, your **full time equivalent** calculation is 100 hours divided by 40 hours, or 2.5 **FTE**.
