### Committee Interest:

Volunteers on various committees carry out a great deal of the work of the Chamber. Volunteers discover that time spent on committee work often generates new business contacts and establishes a presence for their company. In addition, Chamber members can see their membership dollars at work and become involved with the many events and activities held throughout the course of the year. If you're interested, please mark the committees you would like to participate on so we may add you to our notification list for committee information.
