**RE: COVID-19: Chamber Office Update**

Dear Chamber Members and Community,

Effective Thursday, March 26th, until further notice, the Chamber office will be closed to the public and staff will be working remotely to continue to support our members during this time.

In addition to utilizing this down time for internal projects, we are continually looking for ways to support our members through, as well as out, of this pandemic by utilizing various forums and partnerships we have with other Chambers and non-profit organizations to help provide resources, support and attention to our business community through this crisis.

During this office closure, you can reach Tricia via email ([tricia@intlfalls.org](mailto:tricia@intlfalls.org)), on her cell phone at 651-280-5114, or leave a message at the office (218-283-9400 x104). Please let us know how we may serve you through this.

We continue to carry hope for a swift and effective response to help bring us all back to normal with as minimal impact as possible. Thank you again to all our members, community businesses, emergency responders, and their employees who are supporting our community during these uncertain times - we appreciate you!

Together we are stronger!

Stay healthy,

Tricia Heibel
