

## Yankton Chamber Dollars Promotion

### To Chamber Businesses: Guidelines for accepting and processing Yankton Chamber Dollars.

1. When a Chamber Dollar is purchased by a consumer, note that they spend just like a regular check; they are encoded with an account number, routing number and check number using the micr line on the bottom of the check. They are backed by the money they use to purchase the “dollar” from the Chamber office. They are sold in \$5, \$10 and \$20 dollar denominations.
2. Yankton Chamber Dollars cannot be used by the consumer to open an account or deposit in their account at a financial institution. They need to be spent for goods and services in our businesses.
3. If the purchase for goods or services is less than the amount of the “dollar,” businesses need to give back change. (If you do not wish to accept these “dollars” please let the Chamber know so they can communicate this with consumers).
4. Recognize, too, on each “dollar” is the date sold and the deadline date for redeeming them. Consumers have 90 days in which to use the funds. It is important we adhere to this so that the money can get into the business community. We do have a 30-day grace period if they try to spend it after the deadline. If a consumer brings in an expired check, please ask them to bring them to the Chamber office.
5. Important: Businesses should process a Chamber Dollar just like they would normal checks, with the endorsement, and putting it on a deposit slip as “Yankton Chamber Dollar.” All Yankton financial institutions are aware of these checks.
6. The Yankton Chamber Dollar promotion is sponsored by the Chamber’s Business Development Committee.
7. The Chamber is prepared to visit your business to help orient employees on the Yankton Chamber Dollar promotion, or if you have questions, call (605) 665-3636.
