### With Everyone Stressing Now Is A Good Time To Talk About Mental Health

From TLNT: It's the most wonderful, and often stressful, time of the year. The holidays are upon us and many employees are balancing preparations for festivities with last-minute assignments to meet year-end goals. Since almost 1 in 5 U.S. adults experience mental illness

each year, and 64% of people with mental illness report the holidays exacerbate their condition, a significant portion of the workforce will be coping with additional obstacles during this busy time. By taking a few proactive steps, employers can address employee stress during the holidays and get their organization and employees on-track to emphasize mental wellbeing in the new year. I would like to take this space to talk a bit about the two snowmobile races that are taking place in Sauk Centre. We are in need of assistance to find four trucks w/snow plow blades to assist with track prep the day prior to the race and to be available the day of the race. If you or someone you know can assist, please contact the chamber asap! This is an opportunity to bring pond racing back to Sauk Centre and show off our great lake, which in turn means visitors to our community, businesses, hotels, gas stations and more! Let's show them what we're made of!
