Leadership Gainesville

Leadership Gainesville is an eight month training experience for 20 community leaders who represent all aspects of the community: business/volunteer, profit/non-profit, male/female, management/labor, etc. The program was designed to develop and motivate a source of creative, well-informed, civic minded individuals who are willing to devote time and energy toward assuming leadership roles in community service organizations and in all kinds of local government. Through a series of monthly workshops and tours, emphasis is placed on exposing the participants to the realities, opportunities, and pertinent issues of the Gainesville area. The participants learn about our local education system, health, government, agriculture, economic development, manufacturing, and human services.
