

Mercer County Youth Leadership Program Standards & Criteria

To receive a certificate requires active participation in the Mercer County Youth Leadership Program events; it is not an automatic result of meeting selection criteria.

For the program to be meaningful, attendance and interaction among class members are essential. Therefore, the following standards and criteria must be met by each participant:

Standards:

- Each class member shall attend all Event Days
- Each class member shall act and dress in a professional and courteous manner
- Each class member must attend the orientation and presentation of certificates

Class Etiquette:

In addition, class members are expected to observe several general rules of etiquette, important for program efficiency and leadership development:

- Class members must arrive on time
- Class members are expected to remain for an entire program
- Class members should dress in a professional manner
- Class members should notify the committee chair when unable to attend scheduled activities
- Class members shall complete written evaluations at the end of each event
- Class members shall complete any assigned activity on a timely basis
- Class members shall send thank you notes when appropriate

The Mercer Chamber of Commerce and the Harrodsburg-Mercer County Industrial Development Authority have set these standards and criteria to make the class more enjoyable for all. We do not believe these expectations are unattainable. We hope you enjoy the program!
