

Strong business. Strong communities.

## **Prioritizing Small Business Opportunities & Challenges**

Using a Priority Profile tool, Business Development Bank of Canada will show entrepreneurs how to go about establishing priorities.

With real-life examples, business owners will learn how to prioritize all the opportunities and challenges that they may be facing. In learning how to prioritize, entrepreneurs will also be taught how to determine which of these opportunities and/or challenges are the most important to tackle and how to move forward with such initiatives.
