To Whom it May Concern:

The San Rafael Chamber Board of Directors officially opposes the efforts to recall the Marin County District One Supervisor. This position is based solely on the fact that this effort includes the potential waste of government resources at a time when government resources are extremely limited. The Chamber Board of Directors believes that the election process should be used as it is designed. In less than one year (June 2014) constituents will have the opportunity to vote for the appropriate candidate of their choice in District One. The Chamber plans to consider the possible endorsement of a candidate at that time. We encourage all voters to exercise their right to vote to make sure their voice is heard.

Sincerely,
