

Kaiser Permanente San Rafael Medical Center

Top Marks for Quality, Patient Safety, Patient Satisfaction, and Employee Satisfaction

Helping people live longer, healthier lives is its own reward, but a little recognition is nice.

The Kaiser Permanente San Rafael Medical Center continues to be recognized for quality, patient safety, and patient satisfaction by third-party reviewers, national organizations, and our members. And it's also a great place to work.

The hospital has a full three-year accreditation from The Joint Commission. The Leapfrog Group again awarded its top "A" grade for patient safety. Stroke care is honored by the American Heart Association's Get with the Guidelines Stroke Gold Plus Quality Achievement award and Target Stroke Honor Roll. The Joint Commission has also bestowed Stroke Center Accreditation on the Kaiser Permanente San Rafael Medical Center, and it is an Accredited Breast Imaging and Breast Care Center.

The Medical Center was also recognized as one of America's Best Breast Centers by the Women's Choice Awards. And it maintains accreditation from the Commission on Cancer for our quality and leading-edge cancer care. Readers of the Marin IJ voted KP San Rafael the Best Mental Health Care in Marin. Kaiser Permanente is the only Five Star Medicare Plan in California, and it continues to lead the way in making lives better through its unique integrated health care model.

For 13 consecutive years, the San Rafael Medical Center has been named one of the Best Places to Work by the North Bay Business Journal. And it has also been named one of the Healthiest Companies in the North Bay. Nearly 250 San Rafael Medical Center physicians have been named "Top Docs" in a peer-to-peer survey in Marin Magazine. Additionally, many outstanding individual Kaiser Permanente San Rafael leaders, physicians, and staff have garnered dozens of awards for volunteering, professional achievements, and community service.

Building for the Future

To meet the needs of our community, Kaiser Permanente continues to move forward with government and community approval to renovate the office building at 1650 Los Gamos into medical offices. A new Oncology and Infusion Services Center opened at 820 Las Gallinas Ave, and a state of the art Interventional Radiology suite is opening this year.
