

in partnership with

Through our partnership with the Seattle Office of Economic Development's Business Retention and Expansion Program, the **South Lake Union Chamber of Commerce** is pleased to provide a number of benefits to help businesses grow and compete.

Business Loan Options

Businesses can access equity and debt financing products, available through non-traditional and non-profit lending institutions that meet their specific financial needs.

Navigating Government

Businesses that are experience difficulty getting assistance from City of Seattle departments, can contact the **South Lake Union Chamber of Commerce** to work with advocates in the Office of Economic Development and other city departments to resolve issues.

No-Cost Business Consulting

Businesses can receive free one-on-one business consulting services to enhance their daily operations. Consulting topics include business planning, strategic planning, marketing strategies, customer loyalty programs, cash flow, inventory cycle, budgeting, and much more.

Restaurant Success

Restaurants and food business entrepreneurs can receive direct business support as they start and operate their businesses in Seattle. Services include a comprehensive, one-stop, online guide to help navigate city, county, and state permitting and licensing information.

Workforce Development

Businesses can get help identifying potential employees to fill open positions in their establishments.

Utility Savings

Businesses can get help to reduce their utility bills through free audits that identify potential energy, water, and waste reductions savings. There is also a free green business program that helps businesses address and reduce environmental impacts and showcase their efforts to the community.

Construction Impact Assistance

Businesses can request assistance to reduce the impacts of construction projects.
