"The Chamber has been my first resource for where to turn in my business. The team always has a direction to point me, from employee handbooks, education, to working with the City. They have great insight and take the time to figure out my problem in a specific way. They have helped us grow by giving us the confidence that we have support. Running a small business can make you feel alone, but with the Chamber it feels like we have an additional employee to help support you."
