

ANTHEM DENTAL

BUILT FOR BETTER CARE, MORE CONVENIENCE,
GREATER CHOICE AND BIGGER SAVINGS.

We put members at the center of a team-based, integrated approach to care called **Anthem Whole Health Connection**[®]. Care managers and providers work with members in new, innovative ways to make sure they get the most out of their care.

- We automatically cover extra dental services like cleanings and sealants for members with certain ongoing medical conditions and who are part of certain care management programs.¹
- We provide electronic patient health profiles to our dentists, with relevant patient health information including medical diagnoses and prescription medications. This promotes collaboration between dentists and primary care physicians and gives a more complete picture of a patient's health which helps diagnose and treat patients.
- Enhanced preventive care including two routine or four periodontal cleanings are standard.
- Members get special dental and medical care alerts when we find gaps in care. So, for example, if an employee has diabetes, we let the employee and doctor know about any special dental care that may be needed.²

MORE CONVENIENCE

To us, convenience means making life easier for you. It's simplifying your administrative experience and reducing the time it takes to manage your employees' health plans. It's getting claims paid quickly and accurately, and providing web tools to help you and your employees manage costs and stay healthy.

- Dedicated customer service and claims team delivering outstanding results: average claims paid in less than 2.6 days, 99.9% financial claims accuracy, 98.6% first call resolution³
- Comprehensive online and mobile services for members available 24/7
- Search for dentists, look up claims, verify eligibility, check plan details, and access ID cards and educational materials
- Ask a Hygienist free email service personalized advice
- An Online Cost Estimation tool to help research typical charges for a variety of dental procedures
- With Dental Health Risk Assessment it takes just a few minutes for employees to answer simple questions about their dental habits and dental health to figure out their risk factors for tooth decay, gum disease and mouth cancer.

GREAT CHOICES

We offer access to one of the largest dental networks in the nation. And you can customize benefits to build the plan that works best for you and your employees.

- You have access to one of the nation's largest dental networks with over 125,000 unique dentists and 371,000 locations nationwide. That means members can typically go to the dentist they prefer.
- Our suite of benefits helps you choose the plan that works best for your business and employees including options like dental implants, composite fillings, maximum carryover and orthodontic benefits.

BIGGER SAVINGS

Everyone wants to save money. That's why we offer savings for you and your employees.

- You can save 5% on your specialty lines of coverage when you purchase a new dental plan along with our vision, life and/or disability products.⁴
- We don't think your employees should sacrifice quality for affordable care, so we continue to negotiate hard to keep our network discounts high. This means members save an average of 36% on covered dental services.³

SMALL BUSINESS

¹ Members not actively engaged in our medical care management programs can complete a self-enrollment form to become eligible.

² Applies to members in MyHealth Advantage Medical Care Management program(s).

³ Discount applies to dental and vision groups with 2-50 employees, and life and disability groups with 10-50 employees. Life has a \$25,000 minimum for the discount to apply. If LTD is sold with STD, only the STD rate qualifies for the 5% discount. The discount does not apply to voluntary life, voluntary disability and optional life. Contact your representative for complete offer details.
