

The Reopening Ordinance allows previously closed business under Ordinance 20-005 to return to in-person operations in a limited fashion to promote proper social distancing and good hygiene practices. These businesses include bars, restaurants, movie theaters, bowling alleys, salons, barbershops, spas, gyms, recreation facilities, etc.

RESTRICTIONS

BARS, RESTAURANTS, BOWLING ALLEYS, MOVIE THEATERS, AND OTHER PUBLIC GATHERING BUSINESSES

- Theaters and similar businesses will mark certain customer seating as “not available due to social distancing guidelines” to ensure compliance.
- No self-service buffets or salad bars; menus will be disposable or regularly sanitized, and condiments will be sanitized after each customer.
- Develop risk mitigation strategies for restrooms or other areas where social distancing requirements are likely to be compromised.
- Reduced occupancy capacity will be posted in a conspicuous location on the exterior of the business/organization.
- Limit to 10 customers or 50% of the typical building occupancy capacity, whichever is greater.
- Employees will wear protective masks, clean or disinfect regularly, and stay home if sick.
- Post signage instructing customers to stay home if not feeling well.
- High-touch areas and seating will be cleaned between customers.
- Screen employees for symptoms at the beginning of every shift.
- Publicly post a regular cleaning and disinfecting schedule.
- Limit groups to 10 or less and space them 6 feet apart.

GROCERY STORES, CASINOS, GYMS, AND RECREATIONAL FACILITIES

- Develop risk mitigation strategies for restrooms or other areas where social distancing requirements are likely to be compromised.
- Grocery stores will install a plexiglass, or similar divider where physically possible between the cashier and customer.
- Reduced occupancy capacity will be posted in a conspicuous location on the exterior of the business/organization.
- Equipment is wiped down/disinfected before and after each use by customers and/or employees.
- Limit to 10 customers or 50% of the typical building occupancy capacity, whichever is greater.
- Grocery stores will provide hand sanitizer locations which are readily available for public use.
- Grocery stores will provide and clearly mark one-way shopping aisles.
- Publicly post a regular cleaning and disinfecting schedule.

FOR SALONS, BARBERSHOPS, SPAS, AND OTHER RETAIL FACILITIES

- Develop risk mitigation strategies for restrooms or other areas where social distancing requirements are likely to be compromised.
- Retail stores will install a plexiglass, or similar divider where physically possible between the cashier and customer.
- Reduced occupancy capacity will be posted in a conspicuous location on the exterior of the business/organization.
- Facility must provide proper social distancing for waiting customers or ask them to wait in their vehicles.
- Businesses shall post publicly a regular cleaning and disinfecting schedule, specific to each business.
- Retail businesses will provide hand sanitizer locations which are readily available for public use.
- Employees wear masks and gloves as much as service offered permits.
- Retail stores will provide and clearly mark one-way shopping aisles.
- Provide for at least 6 feet of spacing between customers.
- Encourage that services are offered by appointment only.
- Equipment is cleaned before and after each customer.
