Pleasanton Diagnostic Imaging Center – Pleasanton Diagnostic Imaging Center announces a reopening at 5860 Owens Drive, in the John Muir Outpatient Center. The new facility features full diagnostic capabilities and exciting equipment upgrades. New offerings include 3T MRI, perfect for neurology, orthopedic, breast and vascular evaluations. Wide bore design, with an extra foot of head room can decrease feelings of confinement and claustrophobia. 3D tomosynthesis mammography delivers a series of high-resolution images of different layers of the breast allowing greater diagnostic capabilities. These studies, along with CT, Ultrasound, Bone Density and Fluoroscopy can be scheduled at (925) 467-1400. X-rays are performed without an appointment. Most insurances accepted, including John Muir, Hill Physicians, HMOs, PPOs, workers' compensation and Medicare, with competitive outpatient cash prices.
