## Servicing your local land surveying needs

At Dominion Surveyors Inc, quality service is the number one product.

After proudly serving the Northern Virginia area for almost two decades, Dominion Surveyors knows how a land surveying business should be run. That's why they produce quality products in a timely fashion at competitive prices.

Quality without question, service number one. It's as simple as that

Give them a call for a free estimate and you'll see why they're rated as one of the best land surveying companies in the area.

Dominion Surveyors, Inc. (DSI) was established in the summer of 2002, by George M. O'Quinn, a Licensed Land Surveyor with 24 years of experience in the profession and Michael A. Clarke who has worked in the surveying field for 30 years.

The principals, along with a talented group of field and office professionals form a team that is ready to assist you in your local land surveying and civil engineering needs. The firm's focus is on House Location Surveys, Boundaries, Lot stakeouts, ALTA/ACSM surveys, topographic surveys and small infill development plans.

Mr. O'Quinn's local experience serving as President of the Mount Vernon Chapter of the Virginia Association of Land Surveyors, teaching land surveying through the Fairfax County Adult Education Program and Virginia Department of Labor, and his vast experience surveying thousands of properties throughout Northern Virginia, affords this company a high standard of professional service, allowing our clients to profit.

Surveys are completed in four steps to ensure accuracy and quality. This pro-

cess can take anywhere from a few days to a month depending on a number of factors including: the size of job, type of job requested, detail on site, and locating control to match the description of record. A standard House Location Survey can be completed in just a few days.

After working with Dominion Surveyors once, you will join those who say, "I'd never work with a different land surveying company. Dominion is the best."
