**Statement from Mayor Jason Perez  
COVID-19 Mask Order  
7/1/20**

It is after careful consideration and under the advisement of city staff and our local healthcare community that I am joining Mayors throughout this county in issuing a mandatory mask order for the City of Angleton.

This order states that all commercial entities in the City of Angleton are required to implement mandatory policies regarding the wearing of face coverings or face masks for employees and visitors while inside their facilities, and must promote safe social distancing at all times, and follow all Texas DSHS recommendations.

With the recent local surges in COVID-19 cases, the time to elevate to the next level of protection is now. It will take the cooperation of everyone to protect those that are most fragile in our community and help control the spread of the virus.

I want to thank the many residents and businesses that have already implemented protective measures, and I ask every citizen of Angleton to do their part to help bring the numbers down.

- Wear a mask in public
- Wash your hands
- Social distance
- Stay home if you are sick

Join us and #MaskUpAngleton!

Sincerely,

Jason Perez  
Mayor
