The event this year will be held entirely virtually. This means that there will be no shotgun start, no monitored course and no awards ceremony. The race manager plans to mark the course that is usually run in the week before the event would have been scheduled, August 29th, but runners who choose to follow the course do so at their own risk.

By signing this form you release the sponsoring organization, its members or agents and any persons officially connected with this race from all liability for injury or damage.
