Invest In Your Chamber of Commerce By Becoming A Sponsor

It is always a challenge for nonprofit organizations such as ours to fundraise in order to provide the services our members need or as an organization to market and advocate for our membership. To be a successful organization, you must have a product to sell, which has value to those who want to purchase it. As an organization, we support ourselves through membership dues and sponsorships. We grow and retain membership by providing services to our members, which they value, and which can add to their bottom line. As long as there is a value, members will continue to be members.

However, providing value does come with a price. Membership dues allows us to maintain our building, staff, and operational needs to provide a base of operations to support our business community. To provide the additional services such as workshops, seminars and events, we count on sponsorships. Sponsorships enable us to bring these to the membership free or at little charge. This is always an annual challenge and fortunately we have been blessed the past three years with steady membership growth, mostly driven by referrals from you, our members, and we thank you for those kind gestures. The challenge continues to be finding sponsors for those events, which the membership has indicated they value and would like to see more of or expand upon.

This challenge, we believe we have answered by developing a new membership program that rewards you as a member for rewarding us. The new program works in the following way:

When you renew your membership or join the chamber of commerce, the new membership/sponsorship package which is posted on our website, will not only describe the membership levels but will include the sponsorships available for the 2019 calendar year. So, the following is an example of how we reward you for rewarding us with your investment.

Say you join as a basic member, which would be an investment of \$325.00. But you would also like to sponsor an Economic Development Luncheon during the year. That now adds up to a total annual investment with us of \$1325.00. Because of your total investment, you will now be rewarded with a Bronze level membership and all the added value that comes with attaining that level of membership. As you support us during the year, this will be taken in account and if the total investment brings you up to the next level you are rewarded with the added value perks, which accompany that membership level for the remaining annual cycle of membership. This is a way, we can help you earn a return on your investment with us as well as a thank you for your trust and confidence in us as an organization.

We are excited that the board of directors realizes the value of rewarding members for investing in our organization in this way. If you have any questions, please do not hesitate to reach out to me or the staff. It is our goal to help build your business as a partner and this is just another way of helping you market our member businesses or services to the community to accomplish that goal.

Sincerely,

Steve Paterson, President & CEO

League City Regional Chamber of Commerce
