

To all MSL clients and affiliates~

We hope this message finds you well!

This pandemic came in quick and hit our business hard! It was very surreal the first week. By March 16th we had more cancellations than we had business in January and February. We prepared our employees that we did not know how long we were going to be able to keep them working. In our business, we know January and February are slow and we just wait for the business to take off in March. Needless to say our busiest months are not going to happen.

As of March 31, none of our employees has been infected with the virus. Some of our employees decided for the sake of their families to take some time off before it even hit our local area. Because of the quick decline in business, several of our chauffeurs did not drive when virus was hitting the United States which put them at minimal risk.

Martin's Sedan and Limousine Service is still operating and providing transportation when needed. We have masks, gloves, disinfectant wipes and are very conscientious in the interactions with our passengers. We want to assure you that we take the health and well-being of our community, clients, and employees very seriously. Like you, we're closely monitoring the quickly developing updates of the Coronavirus (COVID-19) pandemic.

We are longing for the day to have more frequent interactions with our clients, affiliates and our chauffeurs. We are still answering phones, taking reservations and responding to quote requests. Our phones will still be answered 24/7. Please think ahead of any transportation needs you will have in the future. Think of what fun events can be planned when you can get together with 20 of your closest friends. Think of the light tours around the city, winery trips, easy and seamless stress-free rides to the airport for business, pleasure or family trips.

Some easy ways to support us during this financially challenging time would be to write a Yelp or Google review, refer your friends, email us different organizations we can reach out to that may need help with transportation in the future, and follow us on Facebook. We are always accessible to you. Please reach out if we can do anything better for your transportation needs in the future.

We will be here for all of your transportation needs when this virus goes away! Hopefully it goes away as quickly as it arrived, and it is business as usual. Until then, stay healthy and take advantage of the time at home to reconnect and relax. We are all in this together!

Sincerely,

Ami Martin
