Chicken Alexander

WAVES continues in the tradition of the original O'Neil's Tavern of providing comfortable food and a gathering place for friends to meet and enjoy each other's company. WAVES was launched in October of 2016 in the center of East Hampton with the goal of providing a stylish, yet informal, gathering spot for local residents. From the beginning, our intention was to present fresh, local and regional food and beverage within a broad price range. Guests often mention the "good energy" they feel upon entering WAVES-the welcoming staff, the smell of tasty food, and the vibrant scene. Waves is decorated with authentic East Hampton memorabilia, nautical art and specifically, items that harken back to East Hampton's history.

We hope that WAVES inviting leather booths, wood burning fireplace, bar, and other custom features suggest an inviting and relaxing setting for straightforward comfortable food with a flair
