

Dying Wool for Beginners: Wool roving felted around soap makes a great exfoliant. The wool has antimicrobial properties, and soap doesn't melt away as quickly when it is felted. Come get yourself all lathered up as you felt a bar of goat's milk soap. You are guaranteed some good, clean fun.

Class Fee: \$10 plus a material fee for soap which will depend on how many bars of soap you want to buy. Material fee can be paid day of.

Instructors: Jill Bue and Heather Jarrett
