

Create Positive Change By Becoming A Community Builder

The Program

Lodi's ABCD: Love Your Block is a transformative community program organized by the Lodi Chamber of Commerce and City of Lodi. This program aims to improve the Heritage District by supporting citizen driven community improvement projects. Projects are focused on:

Beautification, Neighborhood Identity and Pride Building, Youth Development, Crime Prevention, and Educational Workshops or Events.

How It Works

Modeled after similar programs successfully established in several other cities nationwide, ABCD: Love Your Block provides a unique opportunity for neighborhood groups to transform their own neighborhood. Area individuals form and development project ideas which can then apply to receive mini-grants up to \$500, receive leadership training, and get connected to existing community resources to help implement the project.

Program Impact

Cycle I: Four neighborhood groups saw their ideas transformed into projects with GRIP's Art Mural, College & Career Workshop, Greening Lodi Wild Flower Garden, Heritage Bike Park.

Cycle II: Had Six neighborhood groups come forward to implement the Little Free Library, A&W Family Bicycle Cruise Night, Water Safety Day, Arts & Culture Festival, English Course for Spanish Speakers, and Dream It, Be It.

What Can You Do To Help?

Together we can transform our neighborhoods with three basic needs and sustain the program.

1. Donate to our cause with a tax deductibale gift.
2. Volunteer and get involved with Cycle III
3. Connect us with a group or local business to spread the word and raise funds
4. Invite friends and family to attend an ABCD community improvement event.
