

Saving. Members. Money.

Did you know that you have access to a GROUP BUY RATE for your Credit Card Processing?

That's right, an exclusive member benefit from the Lake Travis Chamber of Commerce: **GROUP RATE BUYING POWER.** There is no reason you should be paying more than the true cost it takes to process a credit card. Through our program you will have access to the same rates large retailers have with total transparency. The Lake Travis Chamber has partnered with EVO® Merchant Services, a Chamber Member, to bring members much lower rates, and better local service through our combined group buying rates.

Fairness & Local Support is good for your Business

Yes it costs money to process credit cards, but most processors won't take the time to educate you on exactly what you should be paying, nor ensure you have best business practices to ensure you are not paying unnecessary fees. EVO's low, fair fees and educational approach lead to a long-term relationship with you. Plus you are doing business with a fellow Member!

Transparency means no surprises:

EVO® Merchant Services passes thru the true cost of VISA/MC/Discover & American Express with Cost-Plus pricing. Our processing fee never changes for the term of the relationship, so you can see consistency every month on your statement. Answers to any questions are just a phone call away.

You benefit and so does the Chamber. Members win by getting access to lower rates, and the Chamber wins by being able to offer you more valuable programs and benefits for your continued membership.
