**What inspired you to start your own business and how did the idea come about?** I always loved plants and flowers! I was on a trip to the Society Islands and decided that life was too short and it was time to follow a dream.

**If you could go back to the beginning knowing what you know now, what would you have done differently?** I would have started my floral career and do amazing things within the floral industry.

**Give a brief description of your business. What product(s) or service do you provide, and what sets you apart from others?** We are a full-service flower shop and giftware that is connected to gardening and flowers. We also carry tropical succulents and seasonal plants.

**How did you come up with the name of your company? Is it meaningful?** The name is more fun than anything. We have 3 dogs and their names have always started with the letter "B". So, although the names have changed over the years, the tradition has continued.

**What is your favourite activity or place to visit within the Tri-Region, and why?** The University of Alberta Botanic Garden! I took my Master Gardening Course there.

**What are your thoughts on garden gnomes?** Haha, well I am not much of a fan of those silly little creatures. I would never buy any for the store, but thanks to friends, I have been known to have them in my yard.
