How many years have you been in business? Are you the owner or business professional? I am the owner of Bookkeeping Solutions & Consulting and have been in business for 35 years.

What is your company motto? Bookkeeping Solutions & Consulting, Bookkeeping at its best!

What's an interesting fact about your business most people do not know? We are a business that works from home offices and we communicate a lot online between us and our customers. Although we are very happy to go onsite to a clients office any time they need us. We can do payroll very well indeed.

Give a brief description of your business. What product(s) or service do you provide, and what sets you apart from others? We at Bookkeeping Solutions & Consulting combine years of experience with the best systems in order to take the stress of organizing financials away from our clients. We help you to make sure your numbers are right by sorting and organizing receipts and invoices, tracking profit and loss, finding missing expenses, ensuring accurate payroll and GST returns, and protecting you from costly filling errors. We help out clients to eliminate the worry about compliance with the Canada Revenue Agency, and to make better financial decisions when they know their books are right. We are certified in QuickBooks Online and QuickBooks Desktop accounting programs.

What is your favourite activity or place to visit within the Tri-Region, and why? My favourite activity is to spend time with my grandson in the

Spruce Grove Public Library. They have super fun things to do there with a teenager!

What is the best business advice you have received during your career? Always be kind, courteous, and respectful when handling customer concerns.

As a child, what did you want to become when you grew up? Even as a young child I was pretty serious and needed alone time. I liked to get my homework done and that sort of thing. It makes sense that I am a bookkeeper now.

Is there anything else you would like to share? We care about your company documents and will take good care of them. Proper filing of a company's GST and payroll is essential and it must be one time. As long as we are provided with the proper information, we will make sure we file them on time and online.
