- 2 Registration and Referral**
GHS Hearing Counselor registers member and issues referral to local participating provider.
- 3 Payment Processing**
After patient is seen, provider sends hearing device recommendation with patient’s audiometric results to GHS. GHS will contact patient to discuss recommendation, insurance coverage, and any applicable out-of-pocket expense with payment and financing options.
- 4 Fitting and Trial Period**
The hearing device(s) are ordered by provider. Patient is fit with the hearing device(s), beginning their 45 day trial period.
