

## Partner with us for economic growth!

---

Attracting new visitors is vital to the economic success of our area, and absolutely necessary for Stone County to grow and prosper.

Table Rock Lake Chamber of Commerce receives state tourism funding to pay for specific marketing opportunities, but its use is limited. The Chamber receives some funding from Stone County, but the amount only defrays the cost of items such as Vacation Guide distribution, market research, and website maintenance. Our costs are significantly more than the dollars we receive.

We must rely on donations and fundraisers to pay for any other marketing opportunities, since our membership dues revenue is not sufficient to fund destination marketing in addition to Chamber activities. As a destination, we are missing opportunities – and WE COULD DO SO MUCH MORE!

For example, with additional funding we could: upgrade and enhance the impact of our existing advertising; expand into additional markets; invest in shoulder-season expansion – the possibilities are endless! *That's why our Marketing Partners are so very important.*

Make an investment in marketing Table Rock Lake to potential visitors, and receive discounts on Chamber products - plus extra added-value items and high level business recognition!

*Thank you for your consideration in becoming a Marketing Partner with us!*
