

FLORIDA CHAMBER FOUNDATION BY THE NUMBERS
Florida Jobs Making a Comeback

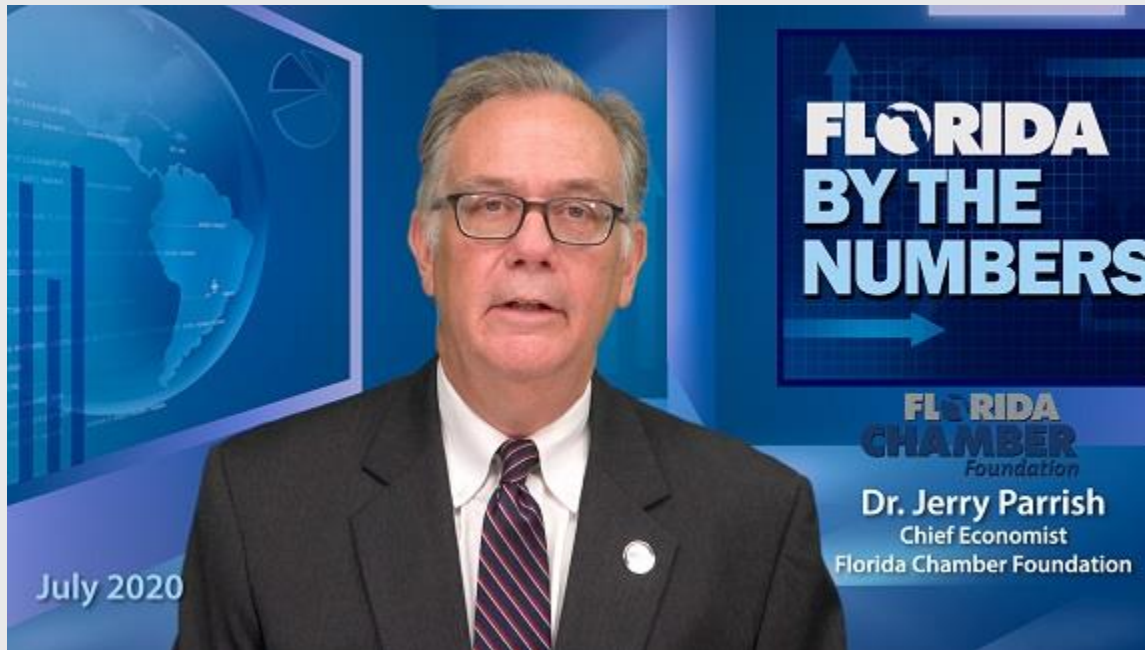

In case you missed it, today's [Florida Chamber COVID-19 Update](#) featured the latest Florida Chamber Foundation *By the Numbers*. In the July edition, Chief Economist Dr. Jerry Parrish tracks the rising number of COVID-19 cases and the slow return of Florida jobs.

More than three million Floridians have been tested for the Coronavirus and as cases continue to rise, many Florida industries continue to struggle. June job numbers, however, show some improvement as Florida's recovery continues.

[Click here](#) to hear Dr. Parrish discuss how unemployment is impacting counties around Florida as well as providing an update on which industries are seeing improvement.

Forward this to associates or colleagues where they can [sign up to receive the monthly *By The Numbers*](#) and if you are not already receiving the COVID-19 Daily Update, [click here to sign up](#).
