

Dear Residents:

The LIRR Expansion Project from Floral Park to Hicksville – one of the region’s most significant transportation infrastructure projects – is now underway throughout the communities along a nearly 10-mile stretch of mainline track.

While this strategic transportation initiative is important to the region, we know it will cause disruption and inconvenience in your community during its construction phase.

Phase I of the work will begin September 24, 2018 and will continue through December. As part of the work, construction teams from 3rd Track Constructors will work on the west side of South Tyson Avenue and in the parking area under the viaduct. By way of explanation:

- 18 “interior” parking spaces under the viaduct will be closed
- Four parking spaces on the west side of Tyson Avenue will be closed
- Temporary, alternate parking will be available at 88 Carnation Avenue, with entrance off of Lily Street
- Tyson Avenue and Atlantic Avenue street-side “exterior” parking under the viaduct will remain
- Pedestrian access will be closed on the west side of South Tyson Avenue under the viaduct
- Pedestrians will be directed to the east side sidewalk, which will remain open

The construction team will provide cones, flagmen and signage at the work site to minimize interruptions and to direct pedestrian and vehicular traffic. Parking will be maintained and available on the east side of South Tyson Avenue.

We understand that a construction project of this size may be challenging at times, but it is our responsibility to communicate with you throughout this project so that you may be informed and have your questions answered as promptly and completely as possible. For more information, please contact the project’s 24-hour Hotline: 516.203.4955 or email CommunityOutreach@lirrexpansion.com. You also may visit our website www.LIRRExpansion.com for up-to-date project details.

Respectfully,

Your Floral Park Community Ambassadors

Judy White

Camille Koorey
