First National Bank of Hartford

At First National Bank, our goal is to enhance your opportunities for financial success and safeguard your assets. That was our goal when we opened our doors in 1907, and it still rings true today. As an independent community bank, we believe we are responsible for supporting our local businesses, associations and community projects. We maintain personal relationships with our customers and view every interaction as an opportunity to do something good for that person and our community — whether that's helping someone get into their first home, opening a savings account for a young saver, helping a new business take off, or donating our resources for a worthy community cause.
