Interfaith is a community non-profit that provides services to seniors in Washington County to help them maintain independence. Services include transportation to medical appointments, light housekeeping, in home visits, and more. Our services are all done through caring volunteers who want to lend a helping hand. Volunteer with Interfaith to help the seniors in YOUR community!

I am a member to broaden and strengthen my connections within the community in order to successfully do my job which is to serve the people of the community and give them the resources they need to be mentally and physically healthy.
