

Leadership Hudson Program Year: 2019-2020

Leadership Hudson is designed to develop employees and future community leaders. Participants are offered the opportunity to develop a personal leadership plan while gaining insight into community assets with a specific monthly leadership focus. A professional leadership facilitator will guide participants in identifying their personal strengths and help individuals to develop team-building and leadership skills. This is a biennial program with students that meet a full day each month, September to May.

Sponsorship recognition runs for the program year.
