

TIPS AND EMERGENCY RESPONSE FOR

HIBERNATING

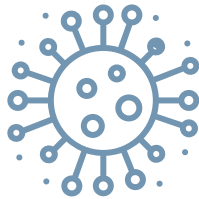

COMMERCIAL BUILDINGS

The combination of unoccupied commercial spaces and reduced preventative maintenance may increase risk for significant property damage.

As your partner and essential service provider, we are maintaining full response readiness for our clients' emergency mitigation needs, including:

WATER
DAMAGE

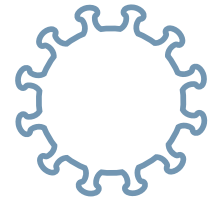

MOULD
DAMAGE

FIRE
DAMAGE

STORM
DAMAGE

COVID-19
DISINFECTION

Follow these top 5 tips to help prevent disaster:

- 01:** Regular inspections for hazards (electrical, mechanical, structural, physical, etc.).
- 02:** Check for visible signs of water leaks.
- 03:** Check for broken windows and doors.
- 04:** Cross train qualified employees and contractors on location and shut off procedures for water, and other utilities.
- 05:** Maintain and communicate critical vendor emergency contact information.

For 24/7 emergency response please call 1.877.778.6731, or your FirstOnSite Account Manager for general inquiries.
