**Q2**

If you make it past the primaries, do you intend to attend the 2021 Public Officials and Candidates Night Reception from 5:00pm to 8:00pm on Wednesday, September 22, 2021?

**Yes, I intend to attend the event and have blocked out the time on my calendar**

---

**Q3**

Why are you running for elected office?

I want to make a difference, not just talk about it. I want to ensure that all unions have a share in the market here in SeaTac. It is my wish to represent the unprivileged people in my immediate community. I also want to build a bridge between law enforcement and the community. Plus, I want to help generate income for this city in the form of entertainment income by way of comedy clubs and social gatherings for all. I want to share the concept of learning to earn your keep in life with this community.

---

**Q4**

What do you consider to be our community's top challenges?

Long term challenge: attracting developers because it brings in housing and jobs. Short term: finding other ways to create another stream of income for the city. With the revenues generated getting the city council to agree on how to be more efficient with the money is the goal. Not to say that they don't agree on anything, but create avenues that can have SeaTac growing consistent to promote economic growth which will encourage development.

---

**Q5**

How will you work with the business community to find solutions?

Make myself available on the day of town meetings before and after. Also, supporting the local business is a sure way to find out what is the problem and working with the business community is my way to get the results needed.

---

**Q6**

Where can your constituents find more information about you and your campaign?

At my website, [kongforseatac.com](http://kongforseatac.com)
