ONLINE INFORMATION TECHNOLOGY TRAINING

CompTIA A+ Certification Training

The CompTIA™ A+ Certification is a critical first step in opening the door to your IT career. Throughout this program, you will learn the essential skills needed to start a career working within the industry. CompTIA™ A+ Certification is vendor neutral and internationally recognized, giving you a competitive advantage no matter what country you're working in and what hardware you're working with. Upon completion of the program, you will be given vouchers to take two CompTIA™ certification exams.

Cost: $1995.00

Hours: 290 (you have 6 months access to complete the training).

CompTIA Certification Training: A+, Network +, and Security +

Careers in Information Technology are steadily growing, and what better way to train for a new career than to prepare for three respected certifications in one convenient online program? This program will help you build the foundational knowledge needed for employment in cutting-edge IT roles. Upon completion of the program, you will be given vouchers to take all three certifying exams.

Cost: $3995.00

Hours: 480 (you have 12 months access to complete the training).

Microsoft Certified Solutions Associate (MCSA): SQL Server 2008

As businesses continue to rally for data-driven decision making, employees with database knowledge are in high demand. This program will prepare you for database administration and development, learning the standards set forth to manage SQL Server 2008. Upon completion of the program, you will be given vouchers to take three Microsoft™ certifying exams.

As you work towards preparing for your MCSA: SQL Server 2008, you will learn how to create database objects, constraints, and alter DML triggers. You'll learn to query and modify data, as well as how to work with functions. To further your expertise, you will also explore troubleshooting and optimizing SQL Server 2008 and the steps to install, manage, and maintain SQL servers.

This program will round out your knowledge by teaching design and implementation of a data warehouse and deployment of SSIS solutions. To gain further understanding, you will learn to install, configure, and manage SQL Server 2008 with virtual, hands-on labs that give step-by-step instructions.

Cost: $2395.00

Hours: 220 Hours (You have 12 months access to complete the training).

"These programs qualify for funding under Indiana's Next Level Jobs Initiative for qualified applicants. When enrolling be sure to ask about the Workforce Ready Grant!"
