lucky to have him on board. I also want to thank Shaun for his presentation at the Business Networking Lunch, where he made members aware of some of the situations that can occur with their computer systems, and how they can prevent problems by following a few easy, but important steps. Thanks also to Amira Watters for her presentation on Goals. Amira is the Executive Director of the Jefferson County Business Resource Center and is available to help Jefferson County Business owners create a strong foundation and skill set for success.

Every day I am impressed by the talent and business knowledge of our members. They are willing to share their knowledge and success with others and this creates a very strong resource for every member.
