

GRANITEROCK CELEBRATES 118 YEARS

Graniterock, a Watsonville-based construction company, celebrated their 118th anniversary with a ribbon cutting. Graniterock prides themselves on providing the highest quality materials for building highways, driveways and runways. Their projects can be as big as runways at San Francisco International Airport and as unique as driveways in Pebble Beach. The company was selected from 16 finalists to receive the 2017 Business of the Year Award from the Monterey Peninsula Chamber of Commerce at the Annual Awards Dinner in March.
