

**D**r. Stone relocated to Calabasas from the East Coast in 2012. She has built a

thriving audiology and hearing rehabilitation practice by applying her knowledge and expertise of the physiology of hearing and the psychology of hearing loss. Her active presence in the community and her enthusiasm for her profession have enabled her accelerated success. Communication is the heart of the human experience, and hearing loss is an invisible barrier to communication. Hearing loss can be present from mild to profound in degree and can impact life on a scale from slight to devastating.” Staying current with state-of-the-art technology and understanding and applying the qualitative outcome of rehabilitation have given me the privilege to improve the lives of my patients through better hearing.”
