

VISITOR POLICIES

As of March 17, 2020

Safety is our priority. We are taking expanded precautions in light of novel coronavirus disease 2019 (COVID-19). To minimize the risk of spreading COVID-19 or exposing patients and our caregivers, we have modified our visitation policy.

We understand the importance of seeing loved ones while they are receiving care and know the value visitors bring to our patients. This visitor policy allows us to promote safety while conserving supplies needed to treat and control the spread of infectious disease.

- All patients and visitors MAY be subject to a temperature screening.
- During this time, we encourage our patients and their loved ones to communicate through phone and video calls.

Changes to our visitation policy are in effect until further notice.

We are monitoring this matter closely and will make adjustments, as necessary. If you have any questions about visitation, please ask a member of your care team.
