

Attention: Manufacturers and Manufacturing Suppliers: Governor Abbott Announces Supply Chain Strike Force For COVID-19 Response

Governor Greg Abbott has announced the creation of a temporary Supply Chain Strike Force. The Supply Chain Strike Force will be tasked with guiding collaboration between the public and private sectors to ensure health care facilities have the supplies and resources they need to respond to COVID-19. In addition to working with the federal government and businesses to secure necessary personal protective equipment, the team will work to ensure day-to-day resources (including food) are available for Texas' medical personnel, first responders and those.

If there are area manufacturers who can shift product lines to help manufacture medical equipment, or if there are manufacturing suppliers who can add to the manufacturing supply chain, we encourage them to seek guidance/help from the strike force

Manufacturers or those who are able to add to the supply chain for manufacturing can email Lubbock Chamber of Commerce Executive Vice President Norma Ritz Johnson at norma.johnson@lubbockbiz.org for the appropriate Supply Chain Strike Force contact information.
