

*Until April 15, 2020, the VetStar SSVF program will place program eligible, high-risk veteran families living in congregated situations into hotels and motels for up to 45 days based on need and program limitations.*

*Should you or your agency identify a high-risk veteran family living in a congregated situation that you feel would benefit from this temporary placement intervention, contact our office at **806-470-9317** and we will arrange for eligibility screening.*

*Those veteran families displaying symptoms (particularly dry cough, fever, and difficulty breathing) should instead be referred to their community's COVID-19 response process rather than this temporary placement intervention.*

*Low-income veteran families (both individuals or veteran head of households) who served in an active-duty military setting, who do not have a dishonorable discharge or a general court-martial, and are in a housing stability crisis are eligible. Still unsure?*

*Call our office at **806-470-9317**.*
