Glazed Honey Ham Co. Receives Water-Smart Award for Summer Quarter

LUBBOCK, Texas – The Lubbock Chamber of Commerce has announced that Glazed Honey Ham Co. has been awarded the Water-Smart Award for Summer Quarter 2016.

Each quarter, the Chamber recognizes members who have implemented water-saving measures. The criteria to win can be anything from landscaping to rainfall capture systems to installing low-flow toilets and active promotion of water conservation.

Glazed Honey Ham Co. has been honored because of its water conservation techniques. One of the main conservation methods includes landscaping with plants that grow well in the Lubbock climate and that do not require a lot of water. Glazed Honey Ham Co. also utilizes an automatic timer on its sprinklers and checks them periodically throughout the year to ensure they are working properly.

“We really like the appearance of this style of landscaping and we wanted to support water conservation efforts, so we met with our landscaper who developed and implemented it for us,” said Ginger King, Manager. “When you design your landscape around plants that thrive in our climate, you will have a beautiful landscape that represents how much you care about conserving our natural resources while saving time and money as well.”

Glazed Honey Ham Co. has been a Chamber member since 1990 and has attended various Chamber events over the years.

If you are conserving water – inside or outside – at your place of business, or know someone who is, the Water-Smart Task Force would like to know, as you could be a candidate for this quarterly award! Please email stevie.poole@lubbockbiz.org or call (806) 761-7000 with your nomination.

The Lubbock Chamber of Commerce represents over 2,000 businesses and over 79,000 employees on the South Plains which accounts for over \$2 billion in annual household earnings in Lubbock and West Texas. The Chamber has twice earned the distinguished 5-Star

WORKING FOR BUSINESS. BELIEVING IN LUBBOCK.
