

JSDigital custom bulk orders of branded, non-medical masks.

As of July 7, 2020, Brampton city council voted unanimously to make wearing masks in enclosed spaces mandatory across the city in an effort to combat the spread of COVID-19.

Our reusable masks are made from 2-ply polyester on the outside and a cotton blend inside. Stay comfortable with hemmed loops that are stitched into the fabric for added stretch and support. The soft material provides breathability, while fitting your face snugly to keep you protected. Machine washable and best of all, they are reusable.

We can brand and custom print the design of your mask order with company logos, slogans or anything else that you want on your masks. The technique that we use to print on or brand the masks is called sublimation and it ensures vivid and accurate colours that won't run or fade when washed.

Benefits of JSDigital Masks

- Fully customizable
- Great for creating a cohesive look amongst your staff
- Help to keep your workers, staff and customers safe
- Cut down on the cost of purchasing disposable masks
- Sublimation printing technique means vivid colours that won't run or fade with washing

Pricing

1-25 = \$7.98 26-50 = \$7.00 51- 100 = \$6.48 101-250 = \$5.95
 251-500 = \$5.25 501-750 = \$4.93 1000+ = \$4.20
