

January 23rd, 2019

Mayor Rebecca Alty and City of Yellowknife Councillors
PO Box 580
Yellowknife, NT
X1A 2N4

Dear Mayor Alty and City of Yellowknife Councillors,

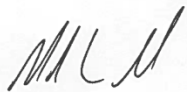

The Yellowknife Chamber of Commerce, in partnership with the NWT & NU Construction Association and the NWT Chamber of Commerce, would like to express our support for several recommendations made by the NWT & NU Chamber of Mines during their presentation to Council on January 7th, 2019.

We support the following recommendations and encourage the City of Yellowknife to:

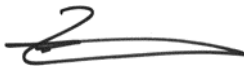

- Build your own understanding of the mining industry's benefits and opportunities;
- Support and seek infrastructure investment including cheaper, greener power for residents, businesses and the mineral industry;
- Rejuvenate Yellowknife as the road, air, logistics and support centre for the NWT and Nunavut minerals industry;
- Become the employment and business hub for the NWT and Kitikmeot mineral industry;
- Become a strong voice for responsible mining, including increased awareness of the mineral industry's importance
- Lobby the territorial and federal governments for support.

We believe that a strong mineral industry is critically important to Yellowknife's long-term economic success and urge the City of Yellowknife to include the above recommendations in your strategic plan.

Sincerely,

Mike Lalonde, President
Yellowknife Chamber of Commerce

Trevor Wever, President
NWT Chamber of Commerce

Dave Brothers, President
NWT & NU Construction Association

Deneen Everett, Executive Director
Yellowknife Chamber of Commerce

Renée Comeau, General Manager
NWT Chamber of Commerce

Matt Belliveau, Executive Director
NWT & NU Construction Association
