

Dear SEKRPC Member,

Does your community have a need for new water lines, or to fix an aging sewer system? How about a new fire station, fire truck, ambulance, storm shelter, bridge, street or community center?

Since you are a member of the Southeast Regional Planning Commission, our staff provides free grant writing services to help you and your county, city or community develop these types of projects. We write the grant for no additional costs, if the grant is awarded we will administer the grant with all administrative fees paid through the grant funds.

It's time to begin planning and organizing projects for the 2014 Community Development Block Grants (CDBG) rounds.
