Governor Ivey Awards \$35 Million in CARES Act Funds for Alabama Health Care and Emergency Response Providers Grant Program

Governor Kay Ivey on Thursday awarded \$35 million in Coronavirus Aid, Relief and Economic Security Act (CARES Act) funds to establish the Alabama Health Care and Emergency Response Providers grant program. The grants will support providers who have been financially impacted by the COVID-19 pandemic.

“The health crisis we continue to face has had significant impact on many fronts. Certainly, individuals, groups and different industries have felt a financial toll, which is why I am proud to continue getting the CARES Act money into the hands of Alabamians who need it,” Governor Ivey said. “The state of Alabama was awarded \$1.9 billion in CARES Act money, and my team and I will continue working hard to get it directly to those individuals and groups who have been impacted.”

On a first-come-first serve basis, the state of Alabama will offer cash grants in an amount up to \$15,000 for Alabama health care and emergency response providers that meet eligibility requirements. The application period for the Alabama Health Care and Emergency Response Provider grant program will be open from noon on October 5, 2020 through noon on October 16, 2020.

Eligible providers for this grant program include:

Health Care Providers

- Primary Care Clinics
- Other Clinics (*Will need to specify*)
- Ambulance/EMS Service Providers
- Pharmacies
- Physician Offices
- Dentist Offices

- Other Health Practitioner Offices (*Will need to specify*)
- Outpatient Care Centers
- Medical and Diagnostic Laboratories
- Home Health Care Businesses
- Assisted Living Facilities
- Physical Therapy Offices
- Other (*Will need to specify*)

Emergency Response Providers

- Rescue Squad Organizations
- Volunteer Fire Departments
- 911 Boards
- Other (*Will need to specify*)

“Like many professions, Alabama physicians have been severely impacted by the pandemic but have continued to provide care to Alabama citizens throughout the crisis. In fact, a recent COVID-19 impact survey revealed that more than 70% of Alabama physicians have experienced a severe financial impact on their practice, causing a disruption in their business operations, and limiting access to care,” Executive Director of the Alabama Medical Association Mark Jackson said. “We applaud Governor Ivey for making these funds available and believe that they will be critical to ensuring that physicians can continue to provide services to those who are in need of medical care.”

Alabama received approximately \$1.9 billion of federal Coronavirus Aid, Relief, and Economic Security Act (CARES Act) funding to respond to and mitigate COVID-19. Alabama Act 2020-199 designated up to \$300 million of the Coronavirus Relief Fund to be used to support citizens, businesses and non-profit and faith-based organizations of the state directly impacted by the coronavirus pandemic.

Governor Ivey Issues Amended Safer at Home Order

Governor Kay Ivey on Thursday issued her seventeenth supplemental emergency proclamation containing an amended Safer at Home Order that includes a statewide mask requirement. Individuals will be required to wear a mask or other facial covering when in public and in close contact with other people, as described in the order. This amended order extends until Friday, October 2, 2020 at 5:00 p.m.

Governor Ivey Announces Mazda Toyota Manufacturing to Boost Alabama Investment by \$830 Million

Governor Kay Ivey on Thursday announced that Mazda Toyota Manufacturing (MTM), the joint venture between automakers Mazda Motor Corp. and Toyota Motor Corp., plans to make an additional \$830 million investment to incorporate new cutting-edge manufacturing technologies to its production lines and provide enhanced training to its workforce of up to 4,000 employees.

“Toyota’s presence in Alabama continues to build excitement about future opportunities that lie ahead, both for our economy and for the residents of our great state,” Governor Ivey said. “Mazda and Toyota’s increased commitment to the development of this manufacturing plant reiterates their belief in the

future of manufacturing in America and the potential for the state of Alabama to be an economic leader in the wake of unprecedented economic change.”

The additional investment brings the total figure in the state-of-the-art facility in Huntsville to \$2.311 billion, up from the \$1.6 billion originally announced in 2018. The investment reaffirms Mazda and Toyota’s commitment to produce the highest-quality products at all of their production facilities.

The investment also accommodates production line modifications to enhance manufacturing processes supporting the Mazda vehicle and design changes to the yet-to-be-announced Toyota SUV that will both be produced at the Alabama plant.

The new facility will have the capacity to produce up to 150,000 units of a future Mazda crossover model and up to 150,000 units of the Toyota SUV each year.

MTM continues to plan for up to 4,000 new jobs and has hired approximately 600 employees to date, with plans to resume accepting applications for production positions later in 2020.

“Mazda Toyota Manufacturing is proud to call Alabama home. Through strong support from our state and local partners, we have been able to further incorporate cutting-edge manufacturing technologies, provide world-class training for team members and develop the highest quality production processes,” said Mark Brazeal, Vice President of Administration at MTM. “As we prepare for the start of production next year, we look forward to developing our future workforce and serving as a hometown company for many years to come.”

Full-scale construction of the Alabama plant continues, with 75 to 100 percent completion on roofing, siding, floor slabs, ductwork, fire protection and electrical.

“This newest investment by our partners at Mazda Toyota Manufacturing shows the company’s continued confidence in the ability of our community to provide a strong, skilled workforce to meet the demands for quality and reliability,” Huntsville Mayor Tommy Battle said. “We look forward to the day when the first vehicles roll off the line.”

“We are excited to learn of this additional investment being made by Mazda Toyota Manufacturing,” Limestone County Commission Chairman Colin Daly said. “We continue to be grateful to MTM for their belief in our community and look forward to our partnership with them for many years to come.”

Greg Canfield, Secretary of the Alabama Department of Commerce, said MTM’s new investment will magnify the economic impact of a project that is poised to transform the North Alabama region.

“With this enhanced investment, Mazda Toyota Manufacturing USA is adding new technology and capabilities to a manufacturing facility that was already designed to be one of the most efficient factories in the automotive industry,” Canfield said. “We’re confident that the groundbreaking collaboration between Mazda and Toyota will drive growth not only for the companies but also for North Alabama for generations.”

Governor Ivey Announces \$100 Million of CARES Act Funding to Nursing Homes and Hospitals

Governor Kay Ivey on Friday awarded \$100 million of the Coronavirus Relief Fund to support two grant programs of up to \$50 million each for nursing homes and hospitals for the purpose of responding to and mitigating the COVID-19 public health emergency.

“While there are many aspects of COVID-19 that we still don’t know, one thing that isn’t in dispute is our seniors and those with preexisting health conditions fair the worst when contracting the virus,” Governor Ivey said. “Protecting our most vulnerable citizens remains a priority for my administration, and it is incumbent to ensure that our nursing homes and hospitals have every tool possible to mitigate the spread of COVID-19 as well as keep their staff and health care professionals safe as they offer exceptional care to those who are ill.”

This allocation of up to \$50 million will be for operational costs that are COVID-19 related, such as PPE, cleaning, personnel costs and other costs incurred related to the pandemic. The Alabama Nursing Home Association Education Foundation, a non-profit (c)(3), previously received \$18.27 million to provide baseline testing for coronavirus and proactive surveillance of the virus for health care personnel and residents of nursing home facilities across Alabama.

“On behalf of Alabama’s nursing homes, I thank Governor Ivey for her continued commitment to assisting the residents and staff in our facilities,” Brandon Farmer, president and CEO of the Alabama Nursing Home Association, said. “Our nursing homes continue to provide high quality, compassionate care despite the challenges posed by COVID-19. These funds will help cover the unexpected and ongoing costs we incur during this pandemic and allow us to focus on caring for those most vulnerable to this virus.”

In partnership with the state of Alabama, the Alabama Nursing Home Association Education Foundation will administer the funds fairly and impartially on behalf of the people of Alabama, for all of Alabama’s nursing home facilities.

Using criteria established by the state of Alabama, the Alabama Hospital Association will administer the funds of up to \$50 million through a grant program to assist every hospital as they continue to provide care to Alabamians affected by COVID-19 as well as continuing to maintain a safe environment to provide quality care for all of our citizen’s health care needs.

“Despite unprecedented challenges and financial strains as a result of the pandemic, Alabama’s hospitals have continued to rise to the occasion in meeting the health care needs of our citizens,” Donald E. Williamson, M.D., president of the Alabama Hospital Association, said. “Our hospitals thank Governor Ivey and her administration for the continued support and financial assistance. This will go a long way to ensure hospitals are able to care for all patients who need hospital services and protect their employees while doing so.”

Alabama received approximately \$1.9 billion of federal Coronavirus Aid, Relief, and Economic Security Act (CARES Act) funding to respond to and mitigate COVID-19. Alabama Act 2020-199 designated up to \$250 million of the Coronavirus Relief Fund to be used to support the delivery of health care and related services to citizens of Alabama related to the coronavirus pandemic.

Governor Ivey Announces \$50 Million Grant Program for Nonprofit and Faith-Based Organizations

Governor Kay Ivey on Thursday announced a \$50 million grant program to support nonprofit and faith-based organizations who have been financially impacted by the COVID-19 pandemic. The Alabama Nonprofit Grant Program and the Alabama Faith-Based Grant Program will be awarded to eligible applicants on a first-come-first-served basis up to a \$25 million aggregate cap in each program.

“Nonprofits and faith-based organizations are truly the backbone of our great state,” Governor Kay Ivey said. “Alabama relies on these entities to be equipped to serve our communities in ways where the state is either unable or incapable of doing so. Unfortunately, many of these groups often have a hard time keeping critical funds flowing in normal circumstances, and the pandemic has exponentially increased their struggle to remain operational. It is simply the right thing to do for our state to ensure Alabama nonprofits and faith-based organizations can recover in order to benefit the citizens they serve.”

Administered through the Department of Finance, the state of Alabama will offer cash grants in an amount up to \$15,000 per Alabama-based nonprofit and faith-based entity that meet eligibility requirements.

Alabama received approximately \$1.9 billion of federal Coronavirus Aid, Relief, and Economic Security Act (CARES Act) to respond to and mitigate COVID-19. Alabama Act 2020-199 designated up to \$300 million of the Coronavirus Relief Fund to be used to support citizens, businesses, and non-profit and faith-based organizations of the state directly impacted by the coronavirus pandemic.

The City of Opelika has been Awarded Funds to Assist Individuals & Businesses

Through the U.S. Department of Housing and Urban Development (HUD), Opelika will be receiving funds to assist low-to moderate income individuals and small businesses who have suffered a loss of income due to COVID-19. Assistance will be available to offset the cost or rent or mortgage payments and utilities. Once the city's plan for use of funds has been approved by HUD and funding is received, the Community Development Department will begin accepting applications for assistance.

PLEASE NOTE: An announcement will be made on the city webpage, www.opelika-al.gov, social media outlets, and through local media outlets when the Community Development Department begins taking applications. Applications are not being accepted at this time.

Lee-Russell Council of Governments (LRCOG) Offering Temporary Loan Program

The LRCOG Revolving Loan Fund (RLF) is working to help sustain the restart of businesses and retain/rehire employees of those business impacted by the economic downturn caused by COVID -19. Due to the impact of the pandemic on small businesses, the increase in demand for RLF loans, and the need for RLF's to provide credit to the region, Economic Development Administration has provided the RLF with the flexibility to allow loans to be expedited quickly. For more information, contact Sandra Machen, 334.748.3016 or email smachen@lrcog.com.

Greens and Beans is Now Offering Nutritiously Delicious Meals for Children Online

With preschools / daycares closing and some families working from home during the health crisis of COVID-19, you can now order prepared meals online at www.greensandbeans.net. At the moment, they are offering “the favorites” for the children from their monthly menus. They are doing this in order to take some burden of the families so that is one less thing for them to worry about.

U.S. Small Business Administration (SBA) [Economic Injury Disaster Loan program \(EIDL\)](#)

The U.S. Small Business Administration has announced relaxed criteria for designated states' and territories' low-interest federal [disaster loans](#) for working capital to small businesses suffering substantial economic injury as a result of the Coronavirus (COVID-19).

- Loans up to \$2,000,000
- 3.75% fixed interest rate on loans to for-profit companies
- 2.75% fixed interest rate on loans to non-profits
- Up to 30-year term and amortization (determined on case-by-case basis)
- Financing to be used for fixed debts, payroll, accounts payable and other bills that can't be paid because of the disaster's impact.

Alabama Department of Public Health

<http://www.alabamapublichealth.gov/>

In order to protect the state of Alabama, the Alabama Department of Public Health has issued new public health orders for all 67 counties.

- All restaurants, bars, breweries will not be allowed to offer on-premises consumption of food or drink. Curbside pickup and online ordering are encouraged.
- All gatherings of 10 or more, or any size that cannot maintain a six foot distance, are prohibited. These orders will be in effect through April 30.

Guidance from ADPH/State:

- Do not gather in groups of more than 10 people
- Maintain 6 ft social distancing
- People age 60+ should not gather in groups of more than 10
- Restaurants should limit to 50% of normal capacity and keep tables 6 ft apart
- Limit exposure in public buildings
- Asking hospitals to cancel elective procedures
- Discouraging any out of state travel

WORK PLACE: Governor Ivey has sent all non-essential employees home. Work remotely. Try to limit meetings.

Alabama Department of Revenue

<https://revenue.alabama.gov/coronavirus-covid-19-outbreak-updates/>

[My Alabama Taxes](#) (MAT) to file and pay taxes; or call 334-242-1170 to receive additional assistance. Please limit in-person visits to the taxpayer service centers at this time. If you must make a payment in person, these payments can be made at one of our nine Taxpayer Service Centers. [Click here](#) for Taxpayer Service Center locations and contact information.

At this time, title applications from designated agents and salvage inspection applications will not be received in-person at the Montgomery Taxpayer Service Center. These applications must be mailed to the [Motor Vehicle Division](#). In addition, all other motor vehicle title, registration, IFTA and IRP transactions must be submitted electronically. For additional questions please contact the Motor Vehicle Division at 334-242-9000.

COVID-19 Related Relief for Taxpayers

- [Temporary Suspension of International Registration Plan \(IRP\) and International Fuel Tax Agreement \(IFTA\) Requirements](#)
- [March 2020 Motor Vehicle Registrations and Property Tax Payments and Penalties Extension](#)
- [Late Payment Penalties Waived for Small Retail Businesses Sales Tax Liabilities \(UPDATED MARCH 18 AT 1:41 P.M.\)](#)

Sales Tax Relief

Effective immediately, the Department of Revenue is extending relief to both [small retail businesses](#), whose monthly retail sales during the previous calendar year averaged \$62,500 or less, and [taxpayers currently registered with the Department as engaging in NAICS Sector 72 business activities](#) who are unable to timely pay their February, March, and April 2020 sales tax liabilities. This relief does not waive or extend normal filing requirements. Instead, these taxpayers may file their monthly sales tax returns for the February, March, and April 2020 reporting periods without paying the state sales tax reported as due. Late payment penalties will be waived for these taxpayers through June 1, 2020.

Businesses included in NAICS Sector 72 are those preparing meals, snacks, and beverages for immediate consumption. A complete list of the business activities that fall within this sector can be viewed at [NAICS Sector 72 – Accommodation and Food Services](#).

After the expiration of this temporary waiver, the Department will work with taxpayers who elected to utilize the waiver program to development workable payment plans that will allow taxpayers to pay outstanding liabilities for February, March, and April 2020, while navigating any other impacts of the coronavirus on their businesses.

This relief is automatic for small retailers and Sector 72 businesses who file their February, March, and April 2020 state sales tax returns. Similar sales tax relief may be available on a case-by-case basis to other businesses significantly impacted by the coronavirus (COVID-19) and the preventative measures being taken to limit its spread in Alabama. These taxpayers may contact the Department's Sales and Use Division at 334-242-1490 to request relief.

Other Potential Relief for Taxpayers

It is expected that the IRS will soon announce extensions of deadlines for filing federal income tax returns. The Department plans to mirror these return filing extensions as appropriate and enter corresponding taxpayer relief orders. Please monitor the Department's [Newsroom](#) for updates.

Other assistance may be available on a case-by-case basis to individuals and businesses that cannot file their tax returns on time due to the COVID-19 outbreak by contacting the Department at the numbers below.

Helpful Contact Information:

- Individual Income Tax: 334-353-0602
- Corporate Income Tax: 334-242-1200
- Pass-through Entities: 334-242-1033
- Sales and Use Tax: 334-242-1490
- Business Privilege Tax: 334-353-7923
- Withholding Tax: 334-242-1300

Alabama Emergency Management Agency
Governor Ivey's Website

East Alabama Medical Center www.eamc.org

Our Emergency Department is receiving individuals who are expressing that they have one or more of the symptoms associated with COVID-19 and that their employer is requiring them to receive a COVID-19 "test" before returning to work. Please know that we CANNOT "test" every person who comes to the ER with these symptoms due to the limited number of supplies available for use for specimen collection. For your knowledge, "testing" means that a specimen is collected and sent to either the ADPH or an independent lab to determine if the person is positive or negative for COVID-19. Such collection kits must be reserved for patients who meet "screening" criteria for "testing." People with symptoms of cough, shortness of breath, and/or fever can call 334-528-SICK for "screening."

U.S. Chamber www.uschamber.com

The US Chamber has already made recommendations to the White House to help address many businesses' most pressing current needs which include dealing with massive revenue loss to prevent bankruptcy and maintaining enough liquidity to keep American companies going and workers on payrolls.
