March 25,2020

During these trying times as each of us are changing our daily life's, one thing remains constant. The willingness to reach out and care for others because we can. As this pandemic continues to spread, we are beginning to receive inquiries about donations.

The TCHD is pleased to accept any donation you are willing to donate. We are accepting donations of Personal Protective Equipment (PPE) – N95 masks, surgical masks, masks used in a wood shop, body shop or paint shop, Nitrile non-latex gloves, and hospital type isolation gowns.

In the future we will be looking to accept other donations as our need increases. For now we ask for PPE for our hospitals, healthcare and first responders that serve Tippecanoe County.

As you watch TV, follow things online and/or listen to social media you here about shortages of this or that as we all continue our quest to end this. If you have PPE to donate, please email donations@tippecanoe.in.gov with what you wish to give and your contact information. A staff member will contact you and coordinate the acceptance with you.

We thank you for your consideration, your thoughtfulness and willingness to help in this time of need. Please wash your hands, be watchful of social distancing if you must go out and continue to follow the directives issued by our Governor. Stay Safe

The Tippecanoe County Health
